EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This Office Action is responsive to Applicant's Amendment filed on 02/28/05. Claims 1 and 5 have been amended, and claims 2-4 and 7-11 have been canceled accordingly.

2. Claims 1, 5 and 6 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: Claim 1 has been amended to include the indicated allowable subject matter in claim 4 and all the limitations of the intervening claims 2 and 3. The prior art of record does not disclose or render obvious a motivation to provide for a method for controlling the timing of ignition in each of a plurality of cylinders of an internal combustion engine as defined by the limitations of claim 1, including identifying a gear transmitting power, measuring an engine speed to establish a measured revolution per minute value, identifying timing parameters using a look-up table, determining whether the measured revolution per minute value is represented in the look-up table, and generating the timing parameter for ignition. Neither Yano et al'503 nor Abe'832 discloses a method that includes the step of determining whether the measured revolution per minute value is represented in the look-up table. There is no suggestion/motivation to add this step to the method of these references.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
